LEAPW502

**Productivity and mobility
combined with a powerful processor**

LEAP W502 stands out for its potent processor combined with a 14" anti-glare display and in and out peripherals (USB, HDMI, VGA) answering the need to adapt to the different learning environments where both, students and teachers, engage.

Purpose-built for Education

Mobility, performance, and portability were on top-of-mind while designing and developing this device that fits the needs and challenges of High School students and Teachers. By keeping in mind that the learning environments might go beyond the classroom walls, LEAP W502 fulfils the most wanted features of an educational device.
