

BOLT W504

Higher Education and Teachers

Performance that inspires

BOLT W504 was developed to elevate the teaching experience and drive academic success in higher education. This new laptop comes with 12th Generation Intel CPUs, ensuring that learners and educators can navigate through tasks seamlessly, fostering an environment where learning thrives.

Whether connecting with students, colleagues, or accessing educational resources online, **BOLT W504** ensures that you're always at the forefront of digital education, breaking down barriers and creating a more connected learning experience.

Purpose-built for Education

In addition to the high-performance CPU, **BOLT W504** offers a wide variety of I/O ports to connect to external devices and a long battery life to keep you going throughout the day. **BOLT W504** includes ikES, a ready-to-use software package with several education apps, providing all the tools necessary to support teachers in the classroom and engage students in learning activities.

Battery for a whole school day

Wide variety of I/O ports

Lightweight device

Preloaded with education software

Sustainable Impact Features

We prioritize the use of recycled or recyclable materials and the reduction of hazardous substances throughout our manufacturing process. Our devices are energy efficient and designed to be repairable, alongside some ruggedness features, promoting a longer lifecycle.
