

LEAP T204

Grades K – 6

Shaping young minds for a digital tomorrow

LEAP T204 is a rugged laptop designed to empower young students with the skills they need for the future. It can accompany them in the exploration of the exciting realm of coding or diving into a hands-on robotics experience, fostering a passion for innovation.

From coding to robotics, digital literacy to critical thinking, **LEAP T204** also encourages children to develop their creativity and adaptability, cultivating an innovative mindset crucial for future professions.

Purpose-built for Education

LEAP T204 was especially designed to be used by young students. For instance, the possibility of dropping the device to the floor or accidental spills on the keyboard were kept in mind. The battery life lasts for an entire school day.

LEAP T204 comes with ikES, a ready-to-use software package with several education apps, providing all the tools necessary to support teachers in the classroom and engage students in learning activities.

Drop resistant up to 100cm
MIL-STD-810H

Liquid spill resistant up to 200cc
Keyboard & Touchpad IP5x

Battery for a school day

Round edges & no sharp corners
For a safer user experience

Educational Software

Sustainable Impact Features

We prioritize the use of recycled or recyclable materials and the reduction of hazardous substances throughout our manufacturing process. Our devices are energy efficient and designed to be repairable, alongside some ruggedness features, promoting a longer lifecycle.
