

TURN T303

Grades 3 – 9

Designed for a learning Ecosystem!

TURN T303, a 360° convertible, was designed to improve mobile learning. The integrated keyboard transforms the tablet into a complete productivity tool for creating and editing content.

Purpose-built for Education

TURN T303 allows differentiated learning experiences among students in the same formal space.

TURN T303 has a long battery life and can always be on. The tactile abilities and the entrance of the Active Stylus makes education attractive.

At the same time, teachers were kept in mind! Having kids and computers in the same room can be a challenging quest and assuring they keep their focus when switching between online and offline moments can be a daunting task. So, on the back of the monitor, there are two lights (ON (charging and battery status) and Wifi Status (Off/ Connected), enabling the teachers to check the status of the devices without disturbing the classroom dynamics.

TURN T303 is jp.ik's first convertible to achieve IP52 – waterproof, dirt and sand proof, shock proof and impact screen protection (MIL-STD-810G compliant).

Preloaded with Inspiring Knowledge Education Software – ikES

ikES promotes the development of the 21st century critical skills, such as collaboration, problem solving, critical thinking and digital literacy, as well as the fundamental skills, including conscious citizenship or intercultural communication

Ruggedness • MIL-STD-810G up to 100cm; IP52

Weight • 1.5kg

Dimensions • 305.8 x 225 x 22.8mm

Accessories • Active Stylus

*ikES is not available with Windows 11 SE

jp.ik's contribution for sustainability

Our devices come with certified FSC Packaging. This means that it uses the least amount of materials possible, and that they all come from certified producers, with forest

management standards that protect water quality, old-grown forests, forest cover and prevent hazardous chemicals. Our devices are designed to be repaired, and together with their intrinsic ruggedness, their lifecycle will be far greater than normal.
