

INSPIRING KNOWLEDGE EDUCATION SOFTWARE

Foxit

Edit your PDFs with powerful yet easy workflows across desktop, mobile, and web - whether you're at school, home, or on the go.

The education sector handles massive quantities of documents daily. From administrative contracts to student records, schools are responsible for keeping track of the paperwork for thousands of students, teachers, and staff. Today, schools around the world are taking the initiative to adopt innovative digital solutions and increase efficiency campus wide. **Foxit** Software's PDF technology enables schools to work with digital documents like they would with paper and enhance workflows with innovative solutions.

- Edit PDF text in a paragraph without worrying about the layout
- Edit images, objects and object shading in PDF
- Edit files with the .ai extension
- Embed images and videos and make a PDF more interactive
- Organize and manipulate PDF pages to support your workflows
- Protect the information in your confidential documents
- Enable PDF accessibility for people with disabilities who use assistive technology
- Scan and convert paper documents or images to PDF

Main features:

Edit PDF like a Pro Quickly and easily update your own PDF documents. Works like a word processor-reflow text across paragraphs, columns, and pages; change document layout, modify text size, font, or line spacing, and add multimedia.

Searching and Editing Scanned Documents with OCR Optical Character Recognition is a technology that converts scanned documents into text. Once you have the digitalized document, you can then use software that includes OCR technology to convert the image into digital text.

Create, Edit, Fill and Sign Documents Legally binding eSign capabilities integrated into the Foxit PDF Editor enables to seamlessly create, eSign, and collaborate on documents within and outside the organization from within the same application without leaving the Foxit PDF Editor.

Share and Collaborate live Connect teammates together to increase flexibility and results. Integrate with leading Content Management Systems, use popular cloud storage services, and initiate shared reviews to provide and manage feedback. Users can jump in and collaborate in real time.
