INSPIRING KNOWLEDGE EDUCATION SOFTWARE

MINECRAFT EDUCATION

Minecraft for Education

Game based learning that prepares students for the future by building skills such as creativity, problem solving and systems thinking.

Minecraft: Education Edition has features built specifically for learning environments to support collaboration, assessment, programming and more. Several schools around the world have integrated **Minecraft: Education Edition** into their curriculum.

- Collaborate on projects with colleagues in multiplayer
- Features and tutorials to support educators
- Play in a safe environment
- Learning content and curriculum guides for various subjects
- Customize the game and use accessibility features

Main features:

Pre-built Lessons Explore over 500 lessons, immersive worlds, challenges and curriculum.

Multidisciplinary Support Courses covering STEM, Programming, Socio-Emotional Learning, History, Languages, 21st Century Skills, among others.

Prepare for the Digital Future Computational thinking with curriculum and in-game programming.

Socio-emotional Skills Build empathy and learn digital citizenship.
