INSPIRING KNOWLEDGE EDUCATION SOFTWARE

Sora Stream

Sora Stream is a cloud gaming platform that allows to play anytime anywhere... With 60 Frames per second, it has the lowest latency in the market with very low bandwidth requirements.

Sora Stream includes **Ludium Lab** technology. Ludium Lab is a Barcelona-based tech company founded in 2012 as a spin-off from Catalonia's Polytechnic University. After the spin-off, a group of researchers started working on a new cloud streaming technology. For more than a decade, the team has been striving to improve interactive streaming for high-quality, low-cost deployment. With the Ludium technology it's possible to play games in 60FPS HD without a dedicated game device or owning the game.

- Affordable and user-friendly platform
- Play on any device, from a computer to a smartphone
- Unlimited gaming with over 300 games of several categories
- No need for downloads, play directly through a browser
- 60 FPS HD quality with very low bandwidth requirements
