ikES

Inspiring Knowledge Education Software

MEET IKES

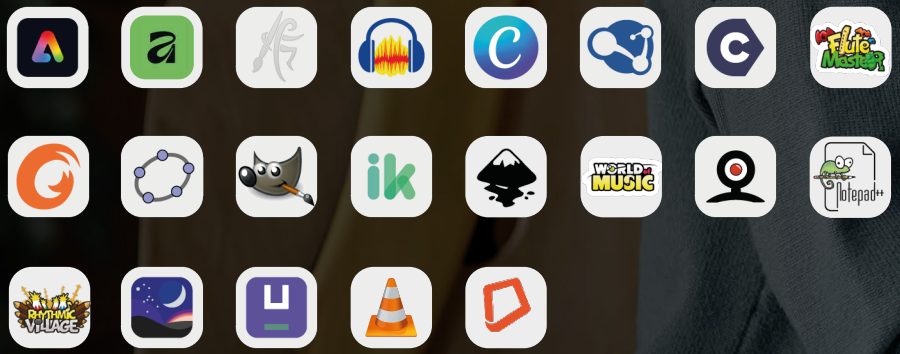
YOUR DEVICE'S LEARNING COMPANION.

Give teachers and students the tools to explore, create and learn.

ikES brings together educational applications curated for teaching and learning, from everyday tools to AI applications. Each learning application is pedagogically vetted and approved, giving schools and teachers confidence in the software selected for their devices.

Available pre-installed and configured on compatible devices, **ikES** is ready to support learning from the first switch-on.

Less time on setup. More time for teaching and learning.



LESS TIME.
ON SETUP.

More time for teaching and learning.

Tools selected for your learning goals.

From STEAM and creativity to collaboration, productivity and digital literacy, applications are chosen to match your educational objectives, learners and teaching context.

Greater control, inside and out of the classroom.

From STEAM and creativity to collaboration, productivity and digital literacy, applications are chosen to match your educational objectives, learners and teaching context.

Adapted to the educational context.

ikES can be tailored to different levels of connectivity, digital readiness and IT capacity.

Selected resources can support offline learning, with local or private AI options available where required and supported.
