

jp.ik Supplier List 2025

jp.ik is committed to increasing transparency throughout its supply chain and promoting responsible business practices among its partners. As part of this commitment, the company monitors and reports on supplier sustainability performance and initiatives.

At the time of publication, the suppliers included represent approximately 80% of jp.ik's spending on materials, manufacturing, and assembly. The scope covers both final assembly processes and the suppliers of components and materials used in jp.ik certified products.
