

## Three possible options to redeem the Xbox Game Pass from TSUNAMI Computers

How to redeem your Free Xbox Game Pass:

1. When starting the computer for the first time, a window will appear on the screen with the information that you have a Game Pass offer and you can redeem it.

2. It will be displayed in Windows notifications for the first few days, that you have the Xbox Game Pass offer.

If you have not redeemed in any of the above options:

1. Click on the Xbox app;
2. Open app notifications in the upper right corner;
3. It will indicate that it has an offer to redeem;
4. When clicking, you must be using a Microsoft account, otherwise it will not be possible to redeem;
5. You will need to enter a payment card number for renewal after the free period (you can cancel before the next payment date).
